August 26, 2020

Dear Boyd County Public Schools Families,

Thank you for continuing to support our students, teachers, staff, and each other as we navigate through the new normal of educating your children during a global pandemic.

At the Board meeting last night, the board members voted to complete the first nine weeks of school via Non-Traditional Instruction for those who previously chose in-person (traditional) learning. Students, who chose the Boyd County Virtual Learning Academy opportunity, will continue with this option. The first day of school for both options will be September 9, 2020. Students, who chose the in-person option, will return to their schools tentatively on November 5, 2020. Please note that we will still offer a “grace” period during this time. Students, who wish to change learning options, may do so after September 23rd.

Our teachers are working hard to provide quality instruction to our students and ensure a smooth start to the school year. Our schools are also planning to allow students to meet their teachers and get acquainted with the technology needed to make NTI Days effective. More information will be released by your child’s school regarding orientation activities. If you have questions concerning your child’s specific educational needs, or the NTI process at your child’s school, please contact the school directly.

As always, I encourage you to make the start of the school year as positive as possible for your child(ren). They may have anxious feelings they are not sharing, but if they see the adults around them being positive and encouraging, it will go a long way. I appreciate all that you do in assisting Boyd County Public Schools in educating your child.

Sincerely,

Superintendent
